GROHE SmartControl

Made with 175 unique components, GROHE SmartControl offers an intuitive, customizable showering experience—effortlessly controlling flow, presetting volume, switching spray patterns, and alternating showers with a simple push-turn. For unmatched convenience and shower pleasure tailored to you.

GROHE TurboStat

At the core of Grohtherm thermostats, GROHE TurboStat; crafted from 213 unique components, delivers instant, precise temperature control. It brings water to the desired temperature instantly and stays stable through pressure fluctuations, prevents sudden spikes, enhances safety, and ensures a consistently comfortable shower experience.

GROHE DreamSpray

GROHE DreamSpray lies at the heart of every GROHE shower, delivering precise water pressure and perfectly balanced spray patterns—every time. With consistent flow to every nozzle, it ensures a high-quality, unparalleled shower experience, whichever spray pattern you choose.

GROHE CoolTouch

GROHE CoolTouch ensures no scalding on hot surfaces by keeping the outer layer below your preferred temperature. An innovative cooling channel creates a barrier between hot water and the chrome surface, so it's never too hot to handle, especially for children's safety.

GROHE SilkMove

GROHE SilkMove cartridges, made of 33 parts, deliver long-lasting, effortless precision in water and temperature control. Featuring ceramic alloy discs and a lubricant reservoir, they ensure the smooth operation that forms the heart of every GROHE faucet and mixer.
